

AGRICULTURAL COLLEGE

ARRANGING COLLEGE INTERIOR FOR OPENING SCHOOL IN SEPTEMBER

Following closely upon the heels of the departing Summer School Students, a small army of repair men has invaded the Utah Agricultural College and is busy making the Institution ready for the opening of the fall term, September 19, 1916.

All of the buildings are being re-

paired in part, rooms are being calmed, and the floors are being oiled. The experiment Station is being renovated throughout. The farm cottages are receiving coats of paint and new shingles. New partitions will increase the class room space available in the Mechanic Arts building and

changes in the Main building will furnish additional class and laboratory room. The grounds are receiving their usual summer care. Beautiful flower beds set in verdant lawns which delight the casual visitor now, are ready to welcome the returning or the new student.

150 DEAD IN FOREST FIRES IN ONTARIO

Meager Reports Reach Toronto, Telegraph Lines Down in Devastated Region.

Englehart, Ont., July 31.—Forest fires raging in northern Ontario are believed to have resulted in the loss of from 150 to 200 lives. Other scores of persons have been injured, and it is feared many of them may die.

Several small towns have been wiped out by the flames that have been raging for forty-eight hours. Reports thus far received show that fifty-seven perished at Mushka, a French-Canadian settlement, and thirty-four at Matheson. Cochrane has eighteen dead and thirty-four injured; Iroquois Falls, fifteen dead. The number killed at Porcupine Junction is not known.

A GOOD THING FOR CHILDREN

Foley's Honey and Tar is a particularly good cold cough and croup medicine for children because it contains no opiates or habit forming drugs. The little colds of summer, as well as the long standing, deep seated coughs, that hang on for months, are banished by its use. The first dose brings relief and comfort. Sold everywhere.—Adv.

but the entire town was destroyed except the railroad station.

Prospectors Trapped

The death list will be materially increased, it is feared, by victims in out lying districts. There are apparently well authenticated reports that many prospectors have been trapped at Tashita and Kowash. One farmer and his ten children, are known to have been burned, while the man's wife was vainly seeking aid to check the on rushing flames.

Mushka, a hamlet consisting of a score of frame buildings and stores, suffered worst. It had been threatened for several days, but the residents lingered in the hope they might save their homes. They waited too long, however, and walls of fire cut off escape.

A near by lake in which they found refuge saved many residents of Cochrane, on the line of the Temiskaming Northern Ontario railway. Only two streets in the town were saved.

Thirty-four bodies are lying on the platform of the railroad station at Matheson. The station and two buildings standing. Ramore, a small settlement, was wiped out.

Flames Are Checked.

The flames were checked at Timmons after seventeen houses had been burned. Only the sawmill was destroyed at South Porcupine.

All that remains of Iroquois Falls are the ruins of the great paper mill and one store. Refugees without food or clothing are pouring into the larger towns south of the burned district. A large number have arrived here, and are being sent to Cobalt and Baillybury. Englehart citizens worked all of last night caring for the homeless wanderers.

Officials of the Temiskaming & Northern Ontario railway adopted energetic relief measures. Calls for assistance were sent to towns along the line and a fully supplied relief train was sent out.

Hundreds of square miles of bush and farm land have been burned over. Isolated settlers took refuge in lakes and rivers, leaving all their belongings behind.

Rain was falling tonight at Matheson and several other points, but a long continued down pour will be necessary to extinguish the fires and prevent them from sweeping further southward.

Couldn't Meet Requirements.

Mose was desirous of opening a grogshop in his town, and sought a license. The commissioner listened to his plea. "All right, Mose," he said, "the fee is fifty dollars. And, of course you have to get the consent of seventy-five per cent of the people in that block." Mose looked a trifle puzzled. "Less see, sah," he said, "yed's Jim an' Sallie an' de fo' Joneses—dat's six—why, mister, dey aint seventy-five per cent of people in dat block, sah!"

THE THING FOR DIARRHOEA

"About two years ago I had a severe attack of diarrhoea which lasted over a week," writes W. C. Jones, Buford, N. D. "I became so weak I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere.—Adv.

Says Utah Can Be Producer of Radium

Pennsylvanian Says State's Deposits of Rare Metals are of Priceless Value.

Salt Lake, July 29.—Government aid in the development of the ore deposits of the western states, which are known as "the rare metals," is to be asked by J. F. Carmichael of South Bethlehem, Pa., who was at the Hotel Utah recently and who is at this time investigating deposits of rare metals in Idaho and Nevada.

For more than a week Mr. Carmichael has been going over the carbonate beds of San Rafael swell in Grand and Emery counties. He says he has found deposits of carnotite ores which can be developed to produce radium.

Mr. Carmichael is looking also for vanadium, uranium and tungsten ores which are used in the hardening of steel and in making of armor plate guns and hardened steel, and says that within the next year the government will awaken to the fact that it is better to develop these deposits as government properties than to be dependent upon the foreign governments for shipments.

PRESIDENT WILL URGE BIGGER NAVY PROGRAM

Endeavoring to Overcome Opposition in House to Senate Increases in Naval Bill

Washington, July 28.—President Wilson will begin tomorrow a series of conferences with members of the house naval committee in an effort to secure acceptance by House conferees of the big building program put into the naval bill by the Senate. It is understood he will exercise all of his influence to overcome opposition to the enormous Senate increases.

Chairman Padgett and Representatives Taft and Estep, ranking majority members of the committee, were summoned today to talk over the subject with the President tomorrow morning before the House meets to select its conferees. Later Mr. Wilson will see other committee members, Republicans as well as Democrats, making a personal appeal for retention of the building provisions authorized by the Senate.

Secretary Daniels made a visit to the capitol during the day to see Mr. Padgett regarding the status of the measure and prospects for early action. He was assured that Democratic leaders were prepared to meet any further attempts to delay it and would force it into conference tomorrow.

Increased pay for officers and men of the regular army and national guards in active service for the Mexican emergency, improved camp conditions to safeguard their health, and authorization for the m to vote in the field at the coming presidential election were provided in amendments to the army appropriation bill agreed today by the Senate.

By a vote of 44 to 13 the Senate also suspended the rules to adopt an amendment changing the age minimum for enlistment in the regular army from 18 to 21 years without the consent of parent or guardian. Under the provision boys under 21 now serving in the army would not be retained in the service unless they filed within thirty days the written consent of their parents or guardians. The amendment was adopted without roll call.

CURE FOR CHOLERA MORBUS

"When our little boy, now seven years old, was a baby he was cured of cholera morbus by Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Mrs. Sidney Simmons, Fair Haven, N. Y. "Since then other members of my family have used this valuable medicine for colic and bowel troubles with good satisfaction and I gladly endorse it as a remedy of exceptional merit." Obtainable everywhere.—Adv.

NEEDLE SWALLOWED BY

BABY FOUND IN ARM.

Richmond, Cal., July 28.—A needle which was swallowed several months ago by the infant son of A. D. Hurst, has just been recovered from the child's arm.

The first intimation given the parents that the child had swallowed the needle was when he complained of pains in his stomach.

The needle worked its way through the walls of the child's stomach, and later was discovered protruding from his left arm. The baby is none the worse for the experience.

It pays to advertise—try it!

Say Parties Fuse

Progressive Leaders Said to Favor G. O. P. Union

Salt Lake, July 28.—Definite action by the Progressives of the county and state will be taken at a meeting to be held during the early part of the coming week. Those in a position to know the sentiment of a majority of the party yesterday declared the Progressives would reunite with the Republicans. The action of the Democrats in making conditions was too much for the Progressives. They balked, too, at the proposal to endorse Congressman J. H. Mays.

One of the matters which has been freely discussed by the Progressive leaders is the Republican nominee for governor and the disposition of the rank and file of the Progressives to support the Republican ticket. Leaders of the Progressive party were united yesterday in saying that in the event the majority of the Progressive party decided to go to the Republican party and that "any good Republican nominated by the Ogden convention would be acceptable to them. Hugh A. McMillin, who has been leading a part of the Progressives who desired a fusion has also declared he will abide by the will of the majority.

HE COULD HARDLY WALK

Deranged kidneys cause rheumatism, aches, pains, soreness, stiffness. Ambrose Gary, Sulphur, Okla., writes: "I was bothered with kidney trouble ten years and at times could hardly walk. I began taking Foley Kidney Pills. I got relief from the first but continued till I had taken three bottles. I feel like a new man." Sold everywhere.—Adv.

WILL PRAY FOR PEACE.

Five Minutes of Silent Supplication Planned for Tuesday

W. N. Williams former state senator and chairman of the Utah State League to Enforce Peace has endorsed for Salt Lake the plan advocated by pacifists of prominence throughout the country, to set aside five minutes for silence, beginning at 11 o'clock on Tuesday, August 1, when prayers may be offered for the restoration of world-wide peace. The movement is being supported by the Y. M. C. A., the Y. W. C. A., the W. C. T. U., and other organizations favoring world-wide peace. It is urged that special services be held in the various churches in Salt Lake, beginning at 11 a. m. on August 1.

True Friend a Constant Delight.
A true friend embraces our objects as his own. We feel another mind bent on the same end, enjoying it, insuring it, reflecting it and delighting in our devotion to it.—William Ellery Channing.
